## TRUE WIRELESS IN-EAR EARPODS BE9B / BE9W

### INSTRUCTION MANUAL

Please read this manual carefully before using, and keep it for future reference.

### WARNINGS

Read the below warnings thoroughly before you start using your earpods. Store this manual and warranty alongside with product packaging. The safety precaution instructions reduce the risk of fire, or injury when correctly complied to.

To reduce the risk of injury:

- Keep batteries out of reach of children.
- Do not heat, open, or dispose of battery pack in fire.
- Do not allow metal objects to touch the battery on the device.
- Do not expose battery pack to excessive heat.

### PAIRING

#### 1. Auto Pairing

##### First Step

Before you do anything, make sure as soon as you remove EarPods from packaging that you place it into the charging case.

When taking out the Wireless Earpods from the charging case, the earphones will automatically turn on, sync together and enter pairing mode.

**Note:** When earphones sync successfully, only 1 earphone will flash blue/red indicating earphones have entered pairing mode.

#### 2. Syncing your Earpods

When EarPods do not sync together or become disconnected during use.

1. Turn off both earphones.
2. Continue to hold the "Right" EarPod, and then press the "Left" EarPod button 3 times.
3. After that, stop holding the "Right" EarPod button and wait up 10 seconds, both EarPods should sync automatically.
4. Finally, turn on Bluetooth on your phone to reconnect the EarPods

**Note:** When EarPods successfully sync, only 1 earphone will flash blue/red indicating that it has entered pairing mode.

If both EarPods Indicator lights flash blue/red, then pairing did not work. Please try sync again by following the above steps.

#### 3. Pairing Wireless Earpods to Smart Device

When you take your earpods out from charging case, your earpods will automatically enter pairing mode (blue/red light).

1. Open up bluetooth settings on your smart device and scan for **BE9**.
2. Once you connect to your earpods, you can now listen to any audio from your smart device!

**Note:** If prompted for a password enter "1234" or "0000".

### BUTTON FUNCTION

#### 1. On/Off Buttons

#### 2. Answer / Hang up

When there is an incoming call, press on the left or right earpod button to answer the call.

Press button again to end the call.

#### 3. Reject / Call Back

When there is an incoming call, press and hold earpod button to refuse the call.

Press the right earpod button 3 times to call back last call.

#### 4. Voice Assistant
